

CHICKEN THIEVES ON THEIR ROUNDS

Rob Henneries of Several Fairfax County Farmers—One Also Steals Horse.

Alexandria, Va., March 8.—Chicken thieves last night invaded three henneries in Fairfax County, west of this city. One of the culprits, a black man, whose farm is located two miles from here, wrung their heads, and, after placing them in a gunny sack, decided to sleep during the night at the railway crossing watchman's box at Cameron Crossing. He was aroused from his slumbers at 4 o'clock this morning when George W. Ridgeway, watchman, came on duty.

The man, a light-skinned negro, fled and left his plunder. The watchman fired several times at him, but the thief made off in the darkness, dodging behind freight cars.

Others whose henneries were robbed were Charles Cockrell and James W. Roberts.

At the place of Mr. Popkins the thief took a horse from the stable, and after riding it more than a mile deserted it.

Seven criminal cases will be considered by a grand jury summoned today to meet in the Corporation Court at 11 o'clock Monday next.

A verdict for defendant was given by a jury yesterday afternoon in the case of Eugene B. Talbot against J. H. Crilly. The object of the suit was to recover damages in the sum of \$500 for injuries alleged to have been sustained by being struck by a wagon belonging to defendant.

PAYMASTER W. W. GALT

MEDAL CONFERRED ON PAY-DIRECTOR GALT

Honored by Navy Department for Extraordinary Services on April 28, 1898.

Washington, March 8.—Pay Director William Wilson Galt, of Norfolk, recently received marked distinction from the Navy Department in the shape of a medal conferred on account of extraordinary services performed on April 28, 1898, two days before the famous battle of Manila Bay, in which he participated as a combatant. In addition to this medal, Pay Director Galt is the only active officer on the staff of the United States Navy who has been advanced in rank for conspicuous gallantry in line of duty.

The incident for which the medal was conferred occurred when Pay Director Galt was paymaster attached to the United States steamship Raleigh, which was part of Commodore (now admiral) Dewey's Asiatic squadron. When the squadron left Hong Kong for Manila Bay, twenty or twenty-five miles distant, on April 25, the time he had the pump ready to take it back to the ship, a heavy northeast gale had arisen and the little launch was in desperate danger of being swamped. In spite of the protests of the crew of the launch, the ship was alarmed by the deluging seas, Paymaster Galt insisted on proceeding with the passage, through a gale so violent that the ship was many times larger than his own frail craft, was forced to put back to shelter, although trying to bring from Hong Kong the United States consul to accompany the squadron to Manila Bay.

As a result of the determination and intrepidity of Paymaster Galt, the Raleigh's pump was delivered to her and played in position, and the ship was able to proceed with the rest of the squadron. This conduct on the part of the paymaster called forth the warmest commendation from Captain Coglian, then in command. Besides receiving the praise of his superior officers, Paymaster Galt was advanced one number in grade for "extraordinary heroism."

An act of March 3, 1901, authorizes the awarding of "specially meritorious" medals for service other than in battle. The medal received recently by Paymaster Galt under the terms of this act is inscribed as follows:

"Awarded to Paymaster W. W. Galt, U. S. Navy, April 26, 1898, in bringing in a launch from Kowloon to Manila Bay, the Raleigh's pump, without which she could not have engaged in the battle of Manila Bay with both of her engines."

PEACE FAR FROM CERTAIN

Provisional President Huerta Is Face to Face With Serious Revolution.

[Special to The Times-Dispatch.]

Washington, March 8.—Until there is a far better prospect of peace in Mexico than exists at present, neither the Federal troops on the frontier nor the United States war vessels now in Mexican waters will be withdrawn. Secretary of War Garrison announced positively this afternoon that the troops will remain on the frontier for the present, and Secretary of the Navy Daniels asserted with equal positiveness that the ships sent within striking distance of Mexico will remain where they are. Mr. Daniels added emphatically any intention to withdraw the ships of war.

In the opinion of the War Department the hope of peace in Mexico is wholly elusive. The safety of American citizens there is still precarious. "The Mexican baby is only asleep," said one high department official today. "He is likely to wake up and cry any time."

The War Department has no actual news from the front, but dispatches from Ambassador Wilson to the State Department were that a revolution was likely to begin at any moment against the Huerta government in the states of Sonora and Coahuila. These dispatches indicate that Huerta himself regards the situation as serious and is taking steps looking to its suppression.

Consul Garrett reports from Laredo that the Maderistas are acting at Lampasas, only seventy-five miles south of Laredo.

Consul Hamm telegraphed from Durango that a large force of troops under a former rebel leader, Agudelo, is operating in that district.

The consul also reports that the town of San Pedro was captured by the rebels under Carranza after an all-night fight.

The consul at Nogales telegraphed that communications south of that city have been cut.

The consul at Porfirio Diaz says that Carranza is in complete control of the situation, and is selling out the property of whomsoever he pleases, including foreigners.

The consul at Juarez telegraphs that the opponents of Huerta have destroyed the bridges on the Northwestern Railway, and the consul at Chihuahua reports the city of Parrel still cut off and besieged by the rebels.

Another dispatch indicates a continuation of disorders, which were of daily occurrence during the Taft administration.

PE-RUNA A GRIP REMEDY

A Multitude of Cases Take It After Everything Else Has Failed.

MR. ROBERT H. NORRIS

A great many people in this country have taken Peruna for the grip. They have taken Peruna in the first stages, when the first symptoms appeared. They find by experience that Peruna will abort the course of the disease. People who take Peruna recover much quicker.

Compared to a few, however, take Peruna during the acute stage. Generally other medicines are taken at first, where doctors are employed. But when the disease becomes chronic, when recovery has been sufficient to enable the patient to be convalescent and yet all run down, out of sorts, easily fatigued, no appetite, when this stage of grip has been reached, then there are multitudes that resort to Peruna and they are never disappointed. Peruna restores them in a comparatively short time.

began at Nacozari to-day between the Maderistas and the Mexican Federal garrison. Manager Williams of the Nacozari Mining Company, while trying to communicate with leaders of both sides in an effort to stop the fight.

The fight at Nacozari is believed to be a clash of Constitutionalists, moving to assist in the expected attack on Agua Prieta with a small Federal detachment stationed at the town. Nacozari is at the end of the Nacozari Pacific Railway, a branch of the Southern Pacific of Mexico, about seventy-five miles south of Agua Prieta. It is the center of an American mining district. No additional details of the fight have been reported to-night.

The first decisive battle of the Sonora State rebellion is expected to take place shortly at Agua Prieta, Refugio, arriving to-day from Nacozari and Mochizuma, reported to General Ojeda, commanding the 250 Federal troops making up the garrison of the town, that 400 rebels, mounted and well armed, are camped in the gap a few miles south. During the night the leaders of the rebels sent a formal demand for surrender. Ojeda did not reply.

First Serious Clash.

Mexico City, March 8.—The first serious clash between the Federalists and Carranzistas is reported to-day, have occurred at Reta, Coahuila, about midway between Monterrey and Mochizuma. The engagement lasted four hours, the rebels offering stubborn resistance.
